The World's Scholarly Publications at Your Fingertips with Scilit from Basel, Switzerland

Asım Arı
Prof., Editor in Chief, International Journal of Instruction, asimari64@gmail.com

Today, access to publications is available in digital environments rather than printed materials. Therefore, databases become very important in accessing scientific publications. With databases, instant and easy access to current publications from all over the world is possible. Scilit (www.scilit.net) is one of these important databases. Scilit is a free database developed by MDPI AG. Scilit includes journal articles, book chapters, monographs, and preprints. It provides services to scientists, academics and everyone who is interested.

Keywords: Scilit, databases, indexes, scientists, scholars, search, publications

Dear Readers,

Scilit (**www.scilit.net**) is a comprehensive content aggregator platform for scholarly publications. It is developed and maintained by the open access publisher MDPI AG. It is offered for free to scientists, scholars and the interested general public. By using largely automated approaches to sourcing and compiling data, newly published content from a variety of data sources is available within hours. Scilit currently covers journal articles, book chapters, monographs and preprints. Advantages provided by Scilit are as follow (Scilit, 2023a):

- Scilit Rankings: Ranking of top publishers, journals and countries by number of journal articles published.
- Related articles widget: Engine to recommend papers from Scilit based on keywords.
- Scitations alert service: Notifies authors whenever their papers are cited by newly published articles.
- Scifeed alert service: Subscribe to alerts by keywords and receive matching, newly published articles.

Advisory Board

The Advisory Board is an international panel of accomplished experts and researchers from multiple fields. The Advisory Board provides current knowledge, critical thinking, and in-depth analyses to help ensure that Scilit stays at the forefront of the industry. Experts and well-known people in their fields are on the advisory board (Scilit, 2023b).

Publisher Information

Publishers have the possibility to register a publisher account with Scilit. Registering an account with Scilit allows Publishers to upload XML-tagged metadata or XML-tagged full-text for their publications directly into Scilit, thus ensuring a timely, full and accurate coverage of their publications in Scilit. The minimum requirement for uploading data is that each article has a DOI number registered with CrossRef, DataCite or mEDRA. Before a publisher is allowed to upload data to Scilit, the publisher and their publications are reviewed (Scilit, 2023c).

Scholars Information

Scilit advanced search supports Boolean operators AND, OR, and NOT in structured advanced searches, in addition to field tags (Scilit, 2023d). You can find the explanations of field tags in the table: https://www.scilit.net/about/user-guide/scholars

Scilit is a comprehensive, free database for scientists using a new method to collate data and indexing scientific materials. With Scilit, research is made discoverable. The explanations can be found in the table below (Scilit, 2023e):

Table 1
For scholars & sources

Search	- Find out the latest publications by (advanced) searching in the comprehensive and centralized platform - Check citation-based metrics and corresponding subjects - Refine the results freely based on several terms - Check the scholar, journal, publisher, and organization profiles, based on the publication and citations data app.scilit.net
Read	- Read the abstracts and full text by the articles' link - Fast indexing — the latest articles indexed within hours
More functions	- Find citing articles for a given article: app.scilit.net/publications/cited-by-search - Rankings of journals and publishers: app.scilit.net/rankings - Reference Formatter: scilit.net/references-formatter/text - Scitations alert serviceİ scitations.net
Services	- Access Scilit metadata via API on request - Add related article powered by Scilit to article pages
Control your content	- Upload and verify metadata - Gain visibility and traffic

Support / Contact

You can contact for questions or feedback (Scilit, 2023f):

MDPI AG
St. Alban-Anlage 66, 4052 Basel, Switzerland
Web: https://www.mdpi.com   *E-Mail:* support@scilit.net   *Tel.:* +41 61 683 77 34

I hope that I was able to introduce Scilit to you in this article I prepared using Scilit's webpages (www.scilit.net). With Scilit, you can do the searches you need for your studies, free of charge. In addition to this, you can benefit from the many advantages it provides you. I also hope you recommend Scilit to your institution and colleagues.

Sincerely,

Prof. Asım Arı
